PROTECTING OUR HERITAGE

RESIDENTS' PETITION AGAINST COMMUNAL BINS IN THE FOLLOWING AREA:

_____

We, the undersigned, protest in the strongest possible terms to the introduction of communal bins. We believe they will cause many, or all, of the following problems which the Council has not adequately considered, or taken action to prevent:

- Fly-tipping
- Loss of parking spaces
- Danger to the elderly and infirm
- Lack of hygiene on the streets

The Council must now concede that the action they wish to take is inappropriate, and that the street/area named above be removed from those taking part in the communal bin system, whether it be a trial or full scheme.

We are happy to consider other ideas they or CityClean may have, if they are applicable to our street, and on the understanding that they are presented and discussed in a democratic fashion.
